Stage weken voor de opleiding Master Informatica

Titel: Cloud based configuration catalog for web applications

Gegevens bedrijf:

Naam: ARDIS Information Systems NV
Tel: 050 72 89 89
Contactpersoon: Gerben Van Dijck
mailadres: Gerben.VanDijck@ardis.eu
Adres waar de student zal werken: Brugstraat 75, 9880 Aalter

Korte of lange stage: **4 weken / 6 weken**

Korte beschrijving van de opdracht:

ARDIS® is the machine independent global market leader for optimization & manufacturing software. Our cutting-edge software offers a modular all-in-one platform specifically designed and built for the sheet/bar/coil cutting industry.

The student will become part of our R&D team to work on our rapidly growing MES solution. The ARDIS R&D team is a passionate team with a broad mix of talents and skills, supporting personal growth and ambition.

The high configurability of our application is one of the key values for our customers. Some of the configuration features are so flexible, that standardized reusable defaults should be foreseen in a sort of catalog. The goal of this internship is to design and develop a framework which allows sharing and reusing of configurations within an implementation, or over multiple instances through a cloud based solution.

Technologieën die aan bod zullen komen:

Following technologies and skills could be touched:

- Javascript
- C#
- .NET
- SQL
- API
- Microsoft Azure
- Technical analysis
- Functional analysis

Faculteit Ingenieurswetenschappen en Architectuur
Opleiding Industrieel Ingenieur Informatica
