

Stage weken voor de opleiding Master Informatica

Titel: Extending test automation capabilities.

Gegevens bedrijf:

Naam: ARDIS Information Systems NV

Tel: 050 72 89 89

Contactpersoon: Gerben Van Dijck

mailadres: Gerben.VanDijck@ardis.eu

Adres waar de student zal werken: Brugstraat 75, 9880 Aalter

Korte of lange stage: **4 weken / 6 weken**

Korte beschrijving van de opdracht:

ARDIS® is the machine independent global market leader for optimization & manufacturing software. Our cutting-edge software offers a modular all-in-one platform specifically designed and built for the sheet/bar/coil cutting industry.

The student will become part of our R&D team to work on our rapidly growing MES solution. The ARDIS R&D team is a passionate team with a broad mix of talents and skills, supporting personal growth and ambition.

As our software is spread worldwide to many companies worldwide, who count on it for their daily activities, it is crucial to prevent regressions in all aspects of the software. The goal of this internship is to evaluate alternatives and implement new or extend existing test automation frameworks, covering both back-end, front-end and performance testing of the application.

Technologieën die aan bod zullen komen:

Following technologies and skills could be touched:

- Functional analysis
- Technical analysis
- .NET
- Javascript
- C#
- SQL
- Jenkins, Katalon, Selenium or likewise
